

## ALEXIOS GIANNAKOPOULOS, PhD

He is a specialist teaching staff in the Wildlife Ecology, Zoonoses & GIS Research Group of the Laboratory of Microbiology and Parasitology-Department of Veterinary Medicine- University of Thessaly in the field of wildlife ecology (Ecology of mammals, migratory-resident wild birds, Ecology of Emerging Wildlife Diseases, etc.), partner of environmental organizations and National Parks Management Agencies. In 2013 he was awarded a PhD thesis in " Wildlife Ecology" from the Biodiversity Conservation Laboratory, Department of Environment, of the Aegean University of Greece. He has over 25 years of experience in wildlife ecology and biodiversity conservation programs but also in wildlife diseases. He has extensive experience 25 yrs in field work and data collection (wildlife capture, wildlife monitoring and recording, VHF, GPS-GSM telemetry, habitat analysis and landscape ecology). He has participated in wildlife trapping activities of large mammals at the U.S. Wildlife Service-Idaho Fish and Game. Dedicated and hardworking GIS analyst with 23 years of experience working with GIS software and for developing GIS databases, data creation, spatial analysis, manage and process field data and their analysis, statistical analysis and GIS modeling. Skilled in the use of ArcGIS, AutoCAD, SAGA-GIS, Quantum GIS, ArcPad10., Biomapper 4.0, Global Mapper, GeoDa, ENVI and SQL. He has participated in more than 25 programs and researches concerning the conservation of mammals, wildbirds and habitats in Greece, while 10 of them concerned on zoonoses, wildlife & livestock diseases. He has participated in writing reports and scientific papers. Publications in scientific journals (31) and international (54) and national conferences (27). Reports Interim & Final Program Reports (45). Research support in 8 doctoral theses, 5 postgraduate theses and 6 undergraduate dissertations of the Departments of Environment (University of Aegean-Greece), Agriculture (University of Thessaly-Greece), Forestry and Veterinary Medicine of the Universities and Technological Educational Institutions.
